

## Sensory Friendly Movies at the Giant Screen Experience

Welcome to the Giant Screen Experience! We want to ensure that you have a positive experience, so we have created a list of things to expect when you come to a movie at the Giant Screen Experience.

### Sights:

- The movie screen is very large and may be bigger than I am used to.
- The lights in the theater will stay on during the movie.

### Sounds:

- The volume of the movie may be louder than I am used to.
- During the movie, we will be quiet so everyone can hear and enjoy the movie.

### Smells:

- There are snacks available during the movie, so I may smell things like popcorn and candy.

### Social Narrative:

1. Today I am going to watch a movie at the Giant Screen Experience at The Henry Ford.

2. We have to check in for the movie in the Welcome Center of Henry Ford Museum of American Innovation.

3. I can use hand sanitizer during my visit. I will put my hands under a white holder that has the sanitizer, and it will come out onto my hands.

4. Before the movie starts, we can buy some snacks and drinks to enjoy during the movie.

- When it is time to enter the theater, we will show our tickets to the staff member at the theater entrance, who will scan them.

- We will find our seats and get ready for the movie to start.

- During the movie we have to be quiet so others can watch too.

8. If I get overwhelmed during the movie, I can go to one of the quiet spaces outside of the theater. I can return to watch the movie once I feel comfortable.

9. At the end of the movie, I can talk to my friends and family about the movie.

10. We should put all of our trash into the trash can as we leave.
