WELCOME TO THE HENRY FORD.

200 acres of innovation. 300 years of history. 36 million artifacts.

At The Henry Ford, you’ll discover America — its culture, inventions, people and can-do spirit — and hundreds of hands-on ways to explore it, enjoy it and be inspired by it. Prepare to be astounded by our attractions and resources: Henry Ford Museum, Greenfield Village, Ford Rouge Factory Tour and Benson Ford Research Center.

Ask yourself this question: What ignites your inner spark and awakens the dreamer, doer, mover and maker in you?

At The Henry Ford, we ask ourselves this question every day as we bring together the stories, innovations and artifacts of America’s past to help inspire the millions of visitors that come here to imagine what’s next.

You’ll find hundreds of objects from our Archive of American Innovation that provide an unprecedented window into 300 years of America’s history. Our unparalleled collection includes Thomas Edison’s Menlo Park Lab, the home and bicycle shop where the Wright brothers first flirted with flight and the Rosa Parks Bus, where the civil rights movement was set in motion. The Henry Ford also has expanding online/digital content, a charter public high school that is helping shape the minds of our next generation of innovators and entrepreneurs, and an Emmy® Award-winning television show, The Henry Ford’s Innovation Nation, every Saturday on CBS, that provides a national platform for today’s most promising innovators and inventions.

These are just some of the ways by which we strive to fuel the spirit of American innovation and inspire an optimistic, entrepreneurial, can-do culture.

Welcome to your world of possibility and potential.

Welcome to The Henry Ford.

The Henry Ford provides unique educational experiences based on authentic objects, stories and lives from America’s traditions of ingenuity, resourcefulness and innovation. Our purpose is to inspire people to learn from these traditions to shape a better future.

“One of the country’s best museums…”
