

### APPLICATION REQUIREMENTS

- ✓ **A completed application must be submitted to <http://registration.thehenryford.org> by July 15, 2016, or until capacity is reached.** Each year your vehicle will be evaluated for the current year's show.
- ✓ **All Applicants** must provide **current** color photographs of the vehicle. These photos should show the side and front of the vehicle, including wheels. The application will prompt the addition of digital images that depict the vehicle **as it looks today**. *Photos are required in order to complete the application process.* Applications submitted without the proper photos will be considered incomplete and may be rejected.

### CRITERIA FOR OLD CAR FESTIVAL ENTRANTS

Old Car Festival serves two purposes: 1) to be a top quality car show in a beautiful setting, providing the best possible experience for show participants and their families, 2) to educate Greenfield Village visitors about the history and significance of the automobile in ways that are fun and engaging for all age levels.

Old Car Festival aims to present vehicles through 1932 that appear as they did when they were in daily use. It is not a hot rod show, custom car show, or modified muscle car show. However, company produced prototypes, period correct racing vehicles, and specific customized cars may be eligible. Restored, partially restored and un-restored vehicles are all eligible.

We will use the following criteria to accept vehicles into the show:

1. Period accessories, either dealer-installed or after-market, are acceptable **if they were available during the model year of the vehicle**. Examples of such accessories include windshield visors, Motometers, "Rocky Mountain" brakes, Ruxtell 2-speed rear axles, running board-mounted luggage carries, and radiator stone guards.
2. Items that improve vehicle safety, or that are required to meet current vehicle standards, such as electric tail lights, are acceptable, even if they were not available when the car was new.
3. Mechanical modifications that were not available when the car was new, such as lowering or adding disc brakes, are not acceptable.
4. Engines must have been available for the vehicle from the factory during the model year of the vehicle. Chassis and engine numbers do NOT need to match.
5. Ideally, engines and the under hood area should look stock. (*We have no way to monitor internal modifications*). Any modifications to the external appearance of engines should conform to rule #1 above.
6. Interiors must be true to original specifications, including materials and colors.
7. Cosmetic modifications such as removing chrome and other trim are not acceptable.
8. Paint must be stock colors available from the factory when the vehicle was new. Exceptions are commercial and racing vehicles, which often featured custom paint schemes.
9. Due to space limitations in Greenfield Village, registration will be limited. In order to fully illustrate the variety and scope of vehicles available, The Henry Ford reserves the right to limit the total number of any particular make, model or style of vehicle.

**In fairness to all potential participants, these requirements and criteria apply to all applications to Old Car Festival.**
