

## **Greenfield Village Buildings with Limited Accessibility**

Whenever possible, wheelchairs are admitted into historic buildings in Greenfield Village. However, not all buildings can accommodate wheelchairs or motorized scooters due to the buildings' physical limitations. The buildings listed below have limited accessibility. If there is still a way to see a building's interior, hear the interpretation provided by its presenter, or hear its audio interpretation, this is included in the list below. Please note that interior access for all buildings varies and that not all of the buildings listed below may be open during your visit. Please call our Contact Center at 313-982-6001 in advance of your visit if you have further questions or needs.

#### Accessibility Information for Historic Rides in Greenfield Village

- Model T's, Horse Drawn Omnibus Shuttle, 1931 Ford Model AA Bus, and Herschell-Spillman Carousel require transfer from a wheelchair, scooter or stroller to the seat of the vehicle.
  - Please note that scooters are unable to load into the queue for the Model T rides. We ask that you or another person from your party inform one of the workers on the loading dock if you would like to ride a Model T. Further accommodations will be made at that time.
- The Weiser Railroad has a wheelchair or motorized scooter lift that is limited to 500 pounds. Motorized scooters rented in Greenfield Village cannot fit on the train. Guests can transfer from their motorized scooter to the train and leave their scooter for pickup later.
