Innovation Column Designs
in Henry Ford Museum of American Innovation®

Complimentary Images
Choose a complimentary design from the image library that includes popular colors, styles and seasonal themes to best accent your event.

Add Your Monogram $250
Make a statement and display your monogram. Monograms can be added to an image from our complimentary library or to your custom design.

Pro Tips: Create your own monogram using such websites as monogrammaker.com. Monograms look best when paired with simple backgrounds.

Custom Image $250
Provide your own image design or photo for a truly customized event. Many images can be found online. Consider the long, narrow portrait-style format of column screens when making your selections — no landscape images. Please remember that there is a bezel halfway down the column, so please take that into account when designing the image.

Additional Custom Images $100 each
Add multiple images to your custom column. Images can be displayed as one, two or four per side and will shuffle randomly throughout your event. Maximum of 12 images.

All images must be provided to The Henry Ford at least four weeks prior to your event. Images must be 300 DPI or higher. Full column specs are 2160px by 7760px.
