

Now You're the Inventor!

Make "The Sabertooth"

Sponsored by  DELTA

1

Fold paper in half lengthwise. Open.

2

Fold corners down to center line.

3

Flip paper over and fold triangle back.

4

Flip over again and fold right corner to center line.

5

Repeat on other side.

6

Flip over.

FLIP FOR NEXT STEP

7

Fold top point down to meet lower point.

8

Flip back over.

9

Open right flap pocket, push out and over to form a point. Press flat.

10

Repeat on opposite side.

11

The end result of Steps 9 and 10 should look like this.

12

Flip over and fold in half

13

Fold one side down to make a wing, repeat on the other side.

14

Fold back the edges of each wing about half an inch so they stick straight up.

15

Adjust wings and FLY!
