Virtual Holiday Lighting Ceremony Craft

Paper Wreath

Estimated Time: 30-60 minutes

Materials:
• Paper plate (center removed)
• Red and green construction paper strips (about 1” wide, 5” long)
• Miscellaneous decorating items
• String or wire
• Glue

Instructions:
Apply glue to small section around paper plate rim.
Fold paper strip around plate rim.
Glue both sides of paper strip together.
Repeat, alternating colors, until circle is complete.
Decorate with fun pom-poms, stickers, string.
Hang with string or wire.

Tips:
Overlapping the strips slightly at the plate rim will help form a fuller circular look. Paper pieces can be attached at intervals, reaching a full wreath for decorating on Christmas Eve.
