▶ **NEW! Miniature Moments: A Journey Through Hallmark® Keepsake Ornaments**

New Permanent Exhibition

Henry Ford Museum of American Innovation

Explore our extensive collection of nearly 7,000 Hallmark ornaments made between 1973 and 2009. Hallmark revolutionized Christmas decorating in the late 20th century by developing an increasing variety of ornaments for a wide range of distinctly different customers. In 1973, Hallmark introduced a small line of Keepsake ornaments. These ornaments, according to the company, “capture meaningful moments, honor special relationships, express who you are, and help you relive timeless memories, year after year.” The initial product line of primarily glass ball ornaments evolved into an emphasis on figural ornaments.

Relive holiday memories, remember special people and events, and find new inspiration for your own holiday traditions as you experience the artistry and creativity that went into creating each Keepsake ornament.

Free with corporate membership or with museum admission.

Explore a rotating collection of culturally significant vehicles from the National Historic Vehicle Register, powered by the Hagerty Drivers Foundation.

The National Historic Vehicle Register was created in 2013 in partnership with the U.S. Department of the Interior's Historic American Engineering Record. The register records the important history of America's significant automobiles. Selected vehicles are researched through written documents and spoken interviews, measured with laser scanners, and photographed from several angles. Each vehicle's story is then preserved in the Library of Congress.
